

# Floods

VEDO

Ooh, ooh  
It's VEDO, baby

Bracing for impact  
I feel the pressure building, my heart rate is to the ceiling  
No time to react  
I can't forget that vision where I'm drowning in your river  
Can you save me?  
Our life is on the line now, we can't waste no time now  
I'm right here at the edge of this thing  
I'm thinking 'bout letting go

Ready to drown  
Here come the floods, I hear the sounds  
Bodies collide, I love when you scream out  
If I take a dive, might have to pull you out, oh  
'Cause when the floods roll in, my love will take you higher  
Touch and pull you close  
Number-one supplier  
Your every desire  
Girl, I'm prepared for the flood  
Flood on us  
Girl, your love's a drug

Ooh, no life jacket, I'm diving in  
No way I'm surviving this  
You gon' be reviving me, ooh-oh  
I'm right where I want to be  
And that's right here next to you, baby, ain't no better view, this I  
know  
Raindrops keep falling on me  
I don't mind, girl, give it to me  
Precipitation at its finest  
I'm losing my mind and

I'm ready to drown  
Here come the floods, I hear the sounds  
Bodies collide, I love when you scream out  
If I take a dive, might have to pull you out, oh  
'Cause when the floods roll in, my love will take you higher  
Touch and pull you close  
Number-one supplier  
Your every desire  
Girl, I'm prepared for the flood  
Let it flood on us  
Girl, your love's a drug
