

I Can Be

VEDO

Yeah, oh, ooh, oh
Yeah, I can be everything
It's VEDO, baby

I can be the air you breathe
I can be the soul you keep
Only one to make you laugh
Be the only one you see
Let me be the things you need
Mirror on the wall to say that you're beautiful
Every chance, I let you know
I can be the shoulder you lean on
The pillow you sleep on
Girl, let me know
I'll be all that and more

Provider, protector
Your homie, your shelter
I'll give you all that I am (Girl, I can be)

I'll be the one you call
If you get lost, I'll find you
I'll be your medicine
Girl, just let me in, I
I gotta be the one when you wake up
I'm right beside you
Gotta be the only one you choose
Girl, I can be the bed that you sleep in
Girl, I can be that dream that you're dreaming
I'll never let you go, girl
I'll stand right beside you
I'll be your everything and more
Girl, I can be

The ground beneath your feet
Be the food you eat
When life has beat you down
Be your mental peace
I'll be your voice at times when you can't seem to speak
Just give me a call, girl
I'll be there to break the fall
I'll be your umbrella in the rain
I'll be the one to change your last name
I'll be the remedy to your pain
You'll be the one that's screamin' my name (Girl, I'll be)

Provider, protector
Your homie, your shelter
I'll give you all that I am, oh (Girl, I can be)

I'll be the one you call
If you get lost, I'll find you
I'll be your medicine
Girl, just let me in, I (Let me in now)
I gotta be the one when you wake up
I'm right beside you
Gotta be the only one you choose

Girl, I can be the bed that you sleep in
Girl, I can be that dream that you're dreaming
I'll never let you go, girl
I'll stand right beside you
I'll be your everything and more
Girl, I can be

Girl, it's a safe place in my arms
You can let your head down
Just let it flow when tears fall down
I'll be your tissue and if you're drownin'
I'll come save you
Girl, I can make every dream come true
Girl, I promise I'll be all for you
Anything that you want me to do (Girl, I can be)

I'll be the one you call
If you get lost, I'll find you
I'll be your medicine
Girl, just let me in, I
I gotta be the one when you wake up
I'm right beside you
Gotta be the only one you choose
Girl, I can be the bed that you sleep in
Girl, I can be that dream that you're dreaming
I'll never let you go, girl
I'll stand right beside you
I'll be your everything and more
Girl, I can be
