I Got You

VEDO

Yea yea do yourself a favor put me in your phone Shawty
Text a nigga later
Know I got the wave right now
Know you tired of being played by now
You the greatest and you winning
Baby never let a hater tell you different
You gone make me pull up on that nigga with the issue
Know you got a ways to go
But girl I'm with you no jumping ship
If it sink then we gone swim let me know

Cause baby I
I see so much inside you
Ain't no rush I got time
Fight that war right beside
I got you I don't mind
You get lost I'll come find you
Ride for you I'll do time
You gotta look out for you
I think that it's time girl I got you

You know that I got you
It took me so long just to find you yea
I knew there was something about you
Tell me what that other nigga left
Cause I know you best
I know your problems
Don't mind me I'm just here to solve'em
Why you so stressed baby just calm down I want you to have it all

Cause baby I
I see so much inside you
Ain't no rush I got time
Fight that war right beside
I got you I don't mind
You get lost I'll come find you
Ride for you I'll do time
You gotta look out for you
I think that it's time girl I got you

Ohhh
Think about yourself one time one time
Do this for yourself right now right now
Know your worth baby no discounts I got a blessing for you don't miss out

Cause baby I
I see so much inside you
Ain't no rush I got time
Fight that war right beside
I got you I don't mind
You get lost I'll come find you
Ride for you I'll do time
You gotta look out for you
I think that it's time girl I got you
