

Intentional

VEDO

Vedo Baby

Everything I do
Comes natural, so girl, you know it's true, ah
See, you won't have to fight for my time
I'm yours
Won't have to question my mind
Oh yeah
From your waking hours, morning showers
You'll always be sure what we make is ours
The higher power will always help us soar
When we pour into each other, we both grow
So you know that my love's intentional

That's why I love you on purpose
I make sure you know you're the one
Girl, let's walk in our purpose, yeah
You won't have to compete with no one

Can we be intentional?
My love and your love is
Intentional
When we touch, it's not lust, it's
Intentional
Can we be -
Can we be intentional? Keep it intentional

Whether it's good or bad, I'll take it all
When you're loving me, give me your all
So the mission's clear that you want me to come down in your water
Ooh
Love how intentionally you trust me with your body
So deep that you can't find me
Ooh, we might start a family
'Cause when we pour into each other, we both grow
Grow
So I know that this love's intentional

That's why I love you on purpose
I love you, I love you on purpose
I make sure you know you're the one
Girl, let's walk in our purpose, yeah
You won't have to compete with no one
One, can we -

Can we be intentional?
My love and your love is
Intentional
When we touch, it's not lust, it's
Intentional
Can we be -
Can we be intentional? Keep it intentional

Yeah
Clear intentions
So I know why I'm here, your intentions
No need to guess if it's clear, good intentions

I want to love with no fear, your intentions
No need to guess if it's clear
