

It Feels Good

VEDO

Oh, oh, woah, woah, woah
Oh, it's VEDO, baby
Troy Taylor, you the G.O.A.T

How did we get here?
Look how far we've come
We've had some good years
And some not so fun
You've been so good to me
No, I won't front
You picked me up when I was down
And helped me to run

And it feels good (It feels good)
To be loving somebody like you
Somebody like you
Feels so good (It feels good)
Won't be loving nobody but you
Nobody but you

I know it took some time but you waited for me
And since I met you I've been through many open doors
Nobody got somebody like mine (No one like mine)
And I'm happy to be calling you mine

How did we get here? (Uh)
Still ten toes down
No other person I would rather be here with
Than a person I've found
Yeah, you know me like a preacher knows his word
And it's so profound, yeah
It feels so good to be understood
And not overlooked
You gave me more than anybody ever took

And it feels good (It feels good)
To be loving somebody like you (Ayy)
Somebody like you
Feels so good (It feels good)
Won't be loving nobody but you (Nobody, baby)
Nobody but you

I know it took some time but you waited for me (You waited)
And since I met you I've been through many open doors (Oh)
Nobody got somebody like mine (No one like mine)
And I'm happy to be calling you mine (Oh, I'm so happy)

And it feels good (It feels good)
To be loving somebody like you (Ayy)
Somebody like you
Feels so good (It feels good)
Won't be loving nobody but you
Nobody but you

I know it took some time but you waited for me
And since I met you I've been through many open doors
Nobody got somebody like mine (No one like mine)

And I'm happy to be calling you mine

It feels good to be loving somebody like you
Somebody like you, yeah
