

Love Language

VEDO

Let me speak your love language, love

Anticipation

Penetration

I been waiting for your love

Ventilation

Heart is racing

No contemplating when we touch

You and me and Hennessy

Making love to your mind

Until your mine

And before I lay you down to sleep

I'll explore your rivers deep

And if we wake and feel the same

I'll make sure that never change

'Cause I want I need ya

No pressure baby reach out for me

I'll answer in your language

Girl I can feel when you talk to me

I want ya complete trust when we touch

Girl just open up for me

'Cause I want ya and you need love

I'll answer girl just call out for me

Panties on the floor

Love & war

Wanting you more

Never been here before

I can't ignore

How you put on

Begging for me

Girl you know

Breakfast in bed

Keeping me fed girl

When I'm all between your legs

Don't let nobody tell you different

You know I'm on a mission

And before I lay you down to sleep

I'll explore your rivers deep

And if we wake and feel the same

I'll make sure that never change

'Cause I want I need ya

No pressure baby reach out for me

I'll answer in your language

Girl I can feel when you talk to me

I want ya complete trust when we touch

Girl just open up for me

'Cause I want ya and you need love

I'll answer girl just call out for me

Girl just call out for me

Girl just call out for me
