

Me & U

VEDO

It's Vedo Baby

Melanin
Baby you're heaven sent
I'm hella bent
So you know I'ma talk my shit
Brown skin caramel
I know you feel it when I swell

It must be this liquor in my cup, yeah
Don't care who you came with to this club know
You could be anywhere but you're here oh
Come a little closer give me your ear
You know it can be

Me and you
We can do it all night long
Freaking you
Playing while you take that off
Me and you
I don't want nobody but you
Girl it's up to you

You should come over (Me and you)
(Me and me and you)
(Shawty come over) Freaking you is what I want to do
You should come over (Me and you me and me and you)
You deserve more love (Yeah you do girl you know you do)

Together as one aye
We could have fun ooh
Stroking you slow
Face down when I use my thumb
I love to look up at you when you ride ride ride
I'll give you the best of me all night night night
Catch your breath, move your hair before you spit on it
Take your time, make me proud before you sit on it
Freaky thoughts in my head, no
Making you wet the bed
Those are things that I wanna do
If only it was

Me and you
We can do it all night long (All night long)
Freaking you
Playing while you take that off (Take it off)
Me and you (Oh)
I don't want nobody but you (Nobody but you)
Girl it's up to you

You should come over (Me and you)
(Me and me and you)
(Shawty come over) Freaking you is what I want to do
You should come over (Me and you me and me and you)
You deserve more love (Yeah you do girl you know you do)
