

No More

VEDO

I don't wanna make excuses
Bout that shit that we been doin no more
No more
That's why it's best we keep it moving too much drama don't wanna go through
this no more no more
If you wanna take some time girl I'm not trippin
But I can't just let you just put to much in this
I know we're gonna go through some thangs
My love won't change
Don't want this feeling no more no more
Let me break it down

I know I've done some things to you
And you know you've said some things to me
But we done been through too much to give it all up
Let's build it back up baby
We gone fight and we gone argue
But Right or wrong I'll stand beside you
Cause you know you my baby
I can't have nobody talking to you crazy
Girl you know me better than I know myself
Know myself
And I can't see myself with nobody else nobody else
I know your insecurities, you know what to say to get to me
I hate it when we do this, let's stop playing and let's get through this

I don't wanna make excuses
Bout that shit that we been doin no more
No more
That's why it's best we keep it moving too much drama don't wanna go through
this no more no more
If you wanna take some time girl I'm not trippin
But I can't just let you just put to much in this
I know we're gonna go through some thangs
My love won't change
Don't want this feeling no more no more
Let me break it down

Nobody said it would be easy this time
Just know the happiest couples, they go through it sometimes
I got your back if you got mine
Don't wanna fight lets take our time
Stop all dat bullshit
And stop being petty girl, this is stupid
Don't let nobody get in our head
Keep it solid whatever it is keep it private
And work out the problems together forever
We ride
Let's boss up, get money and let go of the pride
I hate it when we do this
Girl this is foolish
Let's get through this

I don't wanna make excuses
Bout that shit that we been doin no more
No more
That's why it's best we keep it moving too much drama don't wanna go through

this no more no more
If you wanna take some time girl I'm not trippin
But I can't just let you just put to much in this
I know we're gonna go through some thangs
My love won't change
Don't want this feeling no more no more
Let me break it down

I did you wrong
And You did me wrong
But I'll take you back if you take back
I did you wrong girl
You did me wrong girl
But I'll take you back if you take back

I don't wanna make excuses
Bout that shit that we been doin no more
No more
That's why it's best we keep it moving too much drama don't wanna go through
this no more no more
If you wanna take some time girl I'm not trippin
But I can't just let you just put to much in this
I know we're gonna go through some thangs
My love won't change
Don't want this feeling no more no more
Let me break it down
