

Pull Out

VEDO

In too deep
Got you weak at the knees
Might not come to my senses in time
It's now or never baby
Might put it all on the line
I thought I had my mind made up
Until I had your legs raised up
Music low with this liquor in my cup like
You make it hard for me
You know how to pull all my cards you see
You know how I like you mind control
I don't even want to fight it you gone
And make me start a family
Make an honest woman out you
Met the family (might risk it all)
Then wait on that late text saying you're late text

I don't want to pull out pull out
Pull out babe
Don't make me pull out pull out
Pull out babe

Right now it's feeling like
The best option
Can't let another nigga take my spot
And lock you down take what's mine so
I go down take my time
I'll taste your love you're overflow leave you with a piece of my soul
Judgment cloudy so deep I can barely speak
The deeper that I sink it makes it hard for me to think I might risk it all
And give you my all
And wait on that late text saying you're late text

I don't want to pull out pull out
Pull out babe
Don't make me pull out pull out
Pull out

Henny with your body that's a cold combination
I gotta slow it down about to cum heart racing
I might risk it all and give you my all
Then wait on that late text saying you're late text

Damn I didn't pull out pull out
Pull out
Damn I didn't pull out (ohhh)
Damn I didn't pull out damn I didn't pull out
