

Pull Over

VEDO

Can you wear that perfume that I like?
Aw, yeah
Can you wear the satin dress?
Maybe then let down your hair
Can I have you just the way I like?
Right there
Can I lay you on the bed
Run my fingers through your hair?

Your legs, right there
My hands, right here
My lips, your ear
As I whisper, 'bout to enter
Your hips, my grip
You bite your lip
From down under feel that thunder
I can hear your rivers flow
With rainy possibilities
I can feel it, water dripping
It's clouding my mental, yeah
Girl, we might not make it to my bed

Can we pull over right there?
I don't care who's there
Baby, can we pull over anywhere?
Girl, my windows tinted, can I get in it?
Baby, it can go down right here
I don't really care who hears it
All I really want is for you to turn 'round and
For you to sit that right here
Talking all that in my ear
You gon' have to back that up
We can pull over here right now
Can't wait no longer
Can we pull over?

We might get a ticket in this double R
Right now, it's fuck the law
'Cause I'm trying to take that off
I got more than enough room to do your body good
She's talking understood, might put you on the hood

Put your legs right there
Your legs right there
My hands, right there
My hands, right there
My lips, your ear
As I whisper, 'bout to enter
Your hips, my grip
You bite your lip
Went down under, feel that thunder
I can hear your rivers flow
With rainy possibilities
I can feel it, water dripping
It's clouding my mental, yeah
Girl, we might not make it to my bed

Can we pull over right there?
Right there
I don't care who's there
I don't care
Baby, can we pull over anywhere?
Girl, my windows tinted, can I get in it?
Baby, it can go down right here, yeah
I don't really care who hears it
All I really want is for you to turn 'round and
For you to sit that right here
Talking all that in my ear, babe
You gon' have to back that up
We can pull over here right now
Can't wait no longer
Can we pull over?
