VEDO

It's Vedo, baby...

She said she ready for love  
She down with that bullshit  
She said ain't no pullin' up  
Meet her at the pool pit  
She ain't tryna play no games  
She think all niggas the same  
And if you not on that forever shit  
You can stay on yo lane

I'm wonderin' "Why? Why? Why?"  
She ain't got the patience  
She be like "bye bye bye"  
And I know she don't think twice

If it's somethin' she don't like  
She gon' let 'cha know 'bout it  
She gave her all and it's the problem  
Now a nigga like me gotta come and solve 'em

She say "if I wan't that pussy I'm gonn' have to back dat  
Ain't no free-bees, yeah she freaky but you gotta pass test"  
She got money and she funny, you can see it in her eyes  
She said it's mine if I want it, I can own it  
She hit a nigga with the shot clock

(Don't sleep, don't need no sleep, no sleep, gon' miss your opportunity)  
Shot clock whooooaaaa, shot clock  
(Don't sleep, don't need no sleep, no sleep, gon' miss your opportunity)  
Shot clock

You bet not waste her time  
Only got one good time  
You betta blow her mind  
She done heard every line  
I thought she was boujee when I met her but I know she different  
I know she been through it, I don't blame her if she keep her distance  
5 years of waitin', sick and tired of datin' (she don't know what I'm here f  
or)  
Love is complicated so she come off embrative (it's only when I feel for)

If it's somethin' she don't like  
She gon' let 'cha know 'bout it  
She gave her all and it's the problem  
Now a nigga like me gotta come and solve 'em

She say "if I wan't that pussy I'm gonn' have to back dat  
Ain't no free-bees, yeah she freaky but you gotta pass test"  
She got money and she funny, you can see it in her eyes  
She said it's mine if I want it, I can own it  
She hit a nigga with the shot clock

(Don't sleep, don't need no sleep, no sleep, gonn' miss your opportunity)  
Shot clock whooooaaaa, shot clock  
(Don't sleep, don't need no sleep, no sleep  
Gonn' miss your opportunity)

Shot clock ohhh shot clock

(Don't sleep, don't need no sleep, no sleep, gonn' miss your opportunity

Don't sleep, don't need no sleep, no sleep, gonn' miss your opportunity)
