

I ain't gotta say too much
Catch me in the room when the time's right
I ain't tryna wait too much
If the vibe's right, I can make it feel right
Baby, come through tonight
Got some things on my mind, can I put'em on you tonight
Tell me can you handle it
Pretty thang, need you on top of me
Won't you come rain on me
No, I'm not pullin' out, I'll feed you
So let's slide on the other side of ecstasy, let's fly away
(Let's ride)
Girl, tonight
Forget your feelings, let your body ride the wave
(Oh, yeah, oh yeah, oh yeah, oh yeah)

Yeah, ride the wave, ride the middle, girl, and slide away, yeah, yeah
h
Let's catch a vibe today
And you know if you want it, I can buy the place
Don't play with it, pull up on you now, girl, I've been with it
Shawty, you can slide, know the Wraith tinted
They can't see inside, put your back in it, put your back in it

Pretty thang, need you on top of me
Won't you come rain on me
No, I'm not pullin' out, I'll feed you
So let's slide on the other side of ecstasy, let's fly away
(Let's fly, let's fly)
Girl, tonight
Forget your feelings, let your body ride the wave
Let your body ride the wave
(Oh, yeah)
Let your body ride the wave

So let's slide
(Come on)
On the other side of ecstasy, let's fly away
(Let's fly, let's fly away)
(Oh)
Girl, tonight
Forget your feelings, let your body ride the wave
Let your body ride the wave
(Oh yeah, oh yeah, oh yeah)
Let your body ride the wave
Yeah
