

# Snooze (V)

VEDO

No, woah  
Ooh, ooh, ooh (Yeah)  
It's Vedo, baby

I'll touch that fire for you  
I told your mama not to worry, I'll provide for you  
Let's both get high and take some shrooms  
'Long as I'm here, girl, you ain't never gonna need nobody  
Just know that I'm riding, if you're with me, Ducati  
Pull up, if you got a problem, we got a problem  
Girl, it's true love  
And even if you're wrong, I'll stand beside you  
Won't nobody handle you in front of me, on my mama  
I'm standing on business about you

I can't lose (No)  
So glad they snoozed  
When I'm with you, it's such a moment  
You're like Superwoman  
Nobody, nobody fucking with you  
I can't lose 'cause I got you  
So glad they snoozed and missed the moment  
You're my Superwoman  
If I got it, you got it  
I can't snooze, I can't snooze

I can't let me guard down  
I can't let no nigga get one up  
So I gotta switch it up  
We can't get too comfortable  
'Cause there's always that one person at the door  
That's why I gotta stay on top of it, poppin' it  
It's too many people that's praying against what we put in  
No, we can't worry 'bout them niggas and bitches  
They gon' hate, 'long as we're solid  
We're hard to break, concrete, ooh

Ooh, I'm glad they snoozed  
When I'm with you, it's such a moment  
You're like Superwoman  
Nobody, nobody fucking with you  
I can't lose when I'm with you, you (Ooh, yeah, oh)  
I can not snooze and miss the moment  
You're just too important

I can't lose with you  
I can't snooze on you  
I can't lose (I can't let them niggas get one up on me)  
When I'm with you (Can't let them niggas get one up on me)  
So I gotta stay one up on 'em (I can not snooze and miss the moment)  
Gotta do more than what you did (You're just too important)  
Gotta do more than what you seen  
'Bout you, I can't snooze  
I can't snooze, oh
