

## So Gone

VEDO

Girl, I love you better with no makeup  
Especially in the morning when you wake up  
You make me wanna dive in  
You make, you make me wanna put a child in  
Girl, you got the thing I like  
And I never trip cuz I know that it's mine  
Love every flaw you possess  
And if you ask me ten years from now  
Are you beautiful the answer is yes  
Mum loved you too  
Pop said you cool  
Sis fucks wit you  
Girl that's all the confirmation I need  
To get down on one knee, baby

I'm so gone  
(You make me feel)  
Like I can do anything when you're with me  
Baby, you're a queen, get your king  
Know you feel me, feel me  
You make me feel  
Like I'm better, baby  
That's right, anything you want, girl, you can get it, baby  
Girl, you elevate me

You the one I brag about  
You the only reason that the bag is out  
Remember we used to kick it at yo mama's house  
Do you know, yeah they held you close  
But they start your future way before  
You the one I prayed for  
No Usher girl, but this is what it's made for  
If you're not ready girl, I'll wait for  
Cuz shawty you the best and you know  
Can't nothing change my mind

(You make me feel)  
Oh, you make me feel  
Like I can do anything when you're with me  
Baby, you're a queen, get your king  
Know you feel me, feel me  
(You make me feel)  
Like I'm better, baby  
That's right, anything you want, girl, you can get it, baby (you can get it)  
Girl, you elevate me

I'm so gone  
You can have the code to the phone  
You the only one that I want  
Girl we got time in this  
Can't let no other chick fuck it up  
Girl, this is deeper than us  
Oh girl, you got me like  
Ohhh, I'm ready to ride, yeah  
And I ain't even hit it yet  
Sprung off your personality I must admit  
Girl, you got me good

(You make me feel)  
Girl, you make me feel  
Like I can do anything when you're with me  
Baby, you're a queen, get your king  
Know you feel me, feel me  
(You make me feel)  
Like I'm better baby  
(Like I'm better baby)  
Like I'm better baby  
That's right, anything you want, girl, you can get it, baby  
Girl, you elevate me
