

# Somebody Else

VEDO

Use to be my go to  
Now I don't know you  
We use to pull up to the functions so royal  
Pop shit, girl, you been spoiled

Now you actin' like that you don't know that I'm that guy  
Act like you don't know my vibe  
Put me in a position, I'm back outside

I don't know what happened to you  
You use to be my lil' boo  
Now I can't even sleep no more  
You ain't even a freak no more  
I can't wake up and repeat no more

It can be you or somebody else, yeah  
Who do you think you are  
This ain't good for my health  
I can do bad all by myself  
I'ma be good with somebody else  
Who do you think you are  
You put me through hell  
I'd rather do bad all by myself

Listen to your friends too much  
Always on yo' phone  
You ain't never home  
Girl, I had some plans for us  
I wanted to give me more  
But now you'll never know

'Cause you actin' like that you don't know that I'm that guy  
Act like you don't know my vibe  
Put me in a position, I'm back outside

I don't know what happened to you  
You use to be my lil' boo  
Now I can't even sleep no more  
You ain't even a freak no more  
I can't wake up and repeat no more

It can be you or somebody else yeah  
Who do you think you are?  
This ain't good for my health  
I can do bad all by myself

I'ma be good with somebody else  
Who do you think you are?  
You put me through hell  
I'd rather do bad all by myself

I'ma be good with somebody else  
You put me through hell  
Rather do bad all by myself
