

Take It There

VEDO

It's Vedo Baby
This that Martin and Gina
Something like a will and Jada
Been through the flood like Katrina
I gotta thank the woman that made her
I ain't have no money in my pocket
She was right there
Had a couple nigga tried to stop it
But we are blessed in love
And that's enough. Yeah

But sometimes we take this love for granted and how precious life can be
But every time I think about her touch
Every time I every time I talk about her love
I get choked up this is real love

So I might take it there
We might take it there
Cause it's been on my mind
So let's not waste no time
Cause I might take it there
We might take it there
Cause it's been on my mind
Might be the perfect time
For me to take It There

Do the right thing by you
The first time is my only time
Gotta be sure about you
Pray the Lord to give me a sign
I know she's the right one
No one like her
I can tell she was made for me
And it didn't take long for me to see but

But sometimes we take this love for granted and how precious life can be
But every time I think about her touch
Every time I every time I talk about her love
I get choked up this is real love

So I might take it there
We might take it there
Cause it's been on my mind
So let's not waste no time
Cause I might take it there
We might take it there
Cause it's been on my mind
Might be the perfect time

So I might take it there
We might take it there
Cause it's been on my mind
So let's not waste no time
Cause I might take it there
We might take it there
Cause it's been on my mind
Might be the perfect time
