

Thinkin About You

VEDO

You know
I just can't seem to get you off my mind
And I think I know why
It's VEDO, baby

Girl, I've been thinking about you (Yeah)
Something about you
On every occasion, there's not a day
That I'm not thinking about you
(Day and night, girl, you've been)
Running through my mind all day
And when your slow jam comes on in
You're not right next to me
I put your love on repeat
It's like a sweet melody
Don't know what you do to me
Now I can't stop thinking about you

From your scent to your smile
I think about, can't be without
I'm like a child without your love
Stay for a while, yeah
Let's talk about what makes you smile
Then maybe I can fill you up
No matter how hard I try
I see you in everything
And I don't know what it means, but I
Girl, I gotta keep it real
From sun up to sun down
You're all I think about

Girl, I've been thinking about you (Oh, oh, woah)
Something about you
On every occasion, there's not a day
That I'm not thinking about you
(Day and night, girl, you've been)
Running through my mind all day
And when your slow jam comes on in
You're not right next to me
I put your love on repeat
It's like a sweet melody
Don't know what you do to me
Now I can't stop thinking about you

Oh, it's the simple things that you do for me
You bring that energy
I'll give you what you need
I can do this for hours
Girl, you got superpowers
You can tell I love the way you laugh, yeah
You make it hard for me
To think about anyone but you
It's like tornadoes float all around—
All around my world
When you're here with me, we make some memories
From sunup to sundown
You're all I think about

Girl, I've been thinking about you
Something about you (Woo)
On every occasion, there's not a day
That I'm not thinking about you
(Day and night, girl, you've been)
Running through my mind all day
And when your slow jam comes on in
You're not right next to me
I put your love on repeat
It's like a sweet melody
Don't know what you do to me
Now I can't stop thinking about you
