VEDO

It's Vedo, baby

So I walked up on her and I asked her can I get to know ya
Got me touching on all your body and the way you feel it
Really makes me wanna want you
I can tell she got a perfect figure
Shawty looking like a perfect picture
And you know there ain't way in hell that I'ma leave without this girl tonight

I told her, hit the red light
I cut all my headlights
'Cause you know I came to party but the club's too packed so let's go
So she gave me the green light
I hope is what it seems like
'Cause all I have is some time to think, and now the club is out of control
(It's just me you and me tonight)
She gave me the green light
Push upon her, seems like
She know I want her
I can't find the exit
All these girls are sexy
(Caught up in a traffic jam
Think I'm in a Traffic Jam
I can't find the exit
All these girls are sexy
Traffic jam)

So baby tell me what it takes to get to know you girl
'Cause I'm really feeling you and I can show you better than I can ever tell
you
All the things I wanna do to you
Can't you see baby, I'm trynna get you home with me
It's like being at the club with 6 [?] I can't get free, oh

I told her, hit the red light
I cut all my headlights
'Cause you know I came to party but the club's too packed so let's go (So let's go)
So she gave me the green light (Hey!)
I hope is what it seems like
'Cause all I have is some time to think, this club is out of control (This is you and me tonight)
She gave me the green light
Push upon her, seems like
She know I want her
I can't find the exit
All these girls are sexy
(Caught up in a Traffic Jam
