

## Namaste

## Veil of Maya

We will stand, make this place our own  
One day we will leave it behind  
We will stand, make this place our own  
And one day leave it all behind [2x]

There is a place  
An isle of non-existence created by our drive to live  
Somewhere other than reality  
We must sacrifice to survive, others try to take and deprive

Live together, die alone [2x]

Created by our drive to live  
Fight on until it's known, our purpose, our being here  
Must be a sign to the path, to the path we must take  
From the sky a black smoke engulfs our minds, our souls, our mi  
nds ( our minds) (our souls)  
We fight on until it is known, our purpose  
This is the path  
The path we must take  
We will stand make this place our own  
One day we will leave it behind  
We will stand, make this place our own  
And one day leave it all behind
