

Enter umbra:  
Smoke and mirrors  
Lungs fill up while I look in  
Get your licks up on the surface  
There's no sugar down and under  
(All I've seen  
I see despised)

Circuitry so complex it only works itself  
I caged my head in the clouds  
And my feet underground

Every time I close my eyes I crash a thousand cars  
And all my loved ones die  
Surging with the urges to mutilate and all the guilt of  
Every unwanted thought it brings  
How did it get like this?  
Psychosomatic ticks keeping the feeble conscious  
Stuck inside a broken stereo  
No control on the dial of deathFMradio

All I've seen now I see despised  
Don't you get it?  
I didn't expect a thing

You sing to wage war  
You sing to build this cage  
Violent opera, sing me to death

How'd it get like this?
