

# Activate

Vektor

Activate the currents through  
The gyroscopic spires  
Magnetic relics of  
Planetary revivors

Push, click, flip the switch  
The sequence initiates  
The ship's aglow with vacuum arcs

Activate your life  
Activate your time  
Activate your sight  
Activate your mind

Open your eyes now and focus  
On the horizon rushing in  
With visor down. Hands on controls  
Accelerating, you tighten your grip

Push, click, flip the switch  
The sequence initiates  
On a path to a brave new life  
A better place

Activate your life  
Activate your time  
Activate your sight  
Activate your mind

You are the instrument  
To discord and dissonance  
You are the instrument  
To inner peace and happiness  
In your life you know what's true  
On the horizon in front of you  
So activate what makes you feel  
And wake up to something real

Activate your life  
Activate your time  
Activate your sight  
Activate your mind
