

## Audrey's Eyes

Velocity Girl

When I look into Audrey's eyes  
They are so blue and I realise  
Just how far away  
She's got from me  
Ever since the spring  
I dreamt everything  
But never dreamt the thing  
That I'd lose her  
And she does not even know  
How beautiful she is  
And she does not even see  
Just how beautiful she is to me  
When I looked into Audrey's eyes  
That day the whole world capsized  
The day she left is far away from me  
Please drop me a line if you are so kind  
At least then I would know  
That you are alive
