

die young

venbee

Oh, my mother, holy water
Wash away your sins, I sip away my sins
And she said
"Oh, my daughter, oh, I love you"
Sip away your sins
But I do what I want so I guess I'm gonna die young

When I get home will you leave the lights on?
'Cause it gets a little dark in here, dark in here
I've been trying to get high fix the pieces in my mind
'Cause I'm on a low down here

Kinda wish that I was six feet under, living the dream
The world is fucked mate, not as good as it seems
And she said

"Oh, my mother, holy water"
Wash away your sins, I sip away my sins
And she said
"Oh, my daughter, oh, I love you"
Sip away your sins
But I do what I want so I guess I'm gonna die young

Die young
Die young
But I do what I want so I guess I'm gonna die young
Die young
Die young
But I do what I want so I guess I'm gonna die young

When I get old, will you know my name?
When I get old maybe things will change
'Tryna find the light at the end of the tunnel
Sick of getting myself into trouble

Kinda wish that I was six feet under, living the dream
The world is fucked mate not as good as it seems
And she said

"Oh, my mother, holy water"
Wash away your sins, I sip away my sins
And she said
"Oh, my daughter, oh, I love you"
Sip away your sins
But I do what I want so I guess I'm gonna die young

Die young
Die young
But I do what I want so I guess I'm gonna die young

Oh, my mother, holy water
Wash away your sins, I sip away my sins
And she said
"Oh, my daughter, oh, I love you"
Sip away your sins
But I do what I want so I guess I'm gonna die young
