

rampage

venbee

Flashing lights
I was on a low down
But I came back to life
Given all the money
And I just lost my mind
But I wouldn't be here
If I didn't cross that line
That's fine

I'm not gonna roll up in a Benz
Leaning out the windows 'round my ends
You can have the champagne
I'll be on a rampage
Chillin' in the local with my friends
I'm not gonna roll up in a Benz
It's never been about how much I spend
You can have the champagne
I'll be on a rampage
Lost in the local with my friends

You can have the champagne
I'll be on a rampage
Lost in the local with my friends

Follow me
Take you to pretty places all for free
You'll be surrounded by celebrities
You'll stay forever but you'll never leave

But I won't be there
'Cause I'll be back home
Chilling with my bredrins
Kicking back, stoned
You can have the parties
I'ma take the real shit
You can take the darkness
That I don't want to deal with

Flashing lights
Flashing lights

I'm not gonna roll up in a Benz
Leaning out the windows 'round my ends
You can have the champagne
I'll be on a rampage
Chillin' in the local with my friends
I'm not gonna roll up in a Benz
It's never been about how much I spend
You can have the champagne
I'll be on a rampage
Lost in the local with my friends

You can have the champagne
I'll be on a rampage
Lost in the local with my friends

I'm not gonna roll up in a Benz

It's never been about how much I spend
You can have the champagne
I'll be on a rampage
Lost in the local with my friends
