(Got a feeling
This one's different)

I'll keep my business private
But this time, I think I'd be lying
If I said that I don't feel like I'm dying
Miss her so much like I'm on a diet
Dressed up, she covered in diamonds
Anything she wants, and I'm 'bout to buy it
If she asked me to jump, I jump off the high end
Swear I normally keep my business private

I don't mess around with any other hoes
I keep telling you, but you already know
You already know

Got a feeling
This one's different
I'm not doing well with distance
Know it by how much I miss her
Got a feeling
This one's different
Got me switching up my visions
Know it by the way, way, way, way, way I miss her

Got a feeling
This one's different

Hit fast and without warning
Head over heels, I'm falling
Now I stay up late to tell her good morning
When I'm not with her, now everything's boring
I'll be right there, right where she wants me
Coming upstairs with snacks, she's hungry

I don't mess around with any other hoes
I keep telling you, but you already know
You already know

Got a feeling
This one's different
I'm not doing well with distance
Know it by how much I miss her
Got a feeling
This one's different
Got me switching up my visions
Know it by the way, way, way, way, way I miss her

Got a feeling
This one's different
