

For every moment of pure devotion to all you see  
There's a slight reality  
A realization that what you do is all for nothing  
Have I got your attention?  
My walls have broken in the fourth dimension  
This is the end of times  
This is the last stage of my mind

Pain is all you'll find here  
(Pain is all you'll find here)  
Pain is all you'll find here  
(Pain is all you'll find here)

Hopeless apathy  
Nobody needs me anyway  
This time I threw it all away  
Hopeless apathy  
Nobody needs me anyway  
This time I threw it all away

Why does everyone just feel so empty?  
Why does everything just feel so empty?

I'm nothing but bullshit DNA  
Fucked over with all the cliches  
Too jaded to fucking explain it  
I already know  
So don't even say it

Hopeless apathy  
Nobody needs me anyway  
This time I threw it all away  
Hopeless apathy  
Nobody needs me anyway  
This time I threw it all away

Shut up get the fuck inside  
Shut up get the fuck inside  
Shut up get the fuck inside  
Shut the fuck up get inside

Shut up get the fuck inside  
Shut up get the fuck inside  
Shut up get the fuck inside  
Shut the fuck up get inside

Shut up get the fuck inside  
Shut up get the fuck inside  
Shut up get the fuck inside  
Shut the fuck up get inside
