

The Far Side

Vended

Is it any consolation
I trust your endless sedation
But the fact of the matter is
I've lost the line I can't find the path again

Enlightenment
I can't see what the problem is
I can't see where life ends and the light begins

Oh denial, I've never seen a truer friend
I know my better days are high in life and full of grey
Oh denial, what better way to see they care
I know my better days are full of rain and everything is grey

"Fuck around and find out"
From all the people who "know what it's all about"
I'm so indifferent "fuck your ignorance
Just grab a hold of it"

Satisfactory
Why does everyone feel so empty
I wish this human connection would open up and take you with me

Oh denial, I've never seen a truer friend
I know my better days are high in life and full of grey
Oh denial, what better way to see they care
I know my better days are full of rain and everything is grey

Everything is
Everything is
Everything is
Everything is
Everything is
Everything is grey
Everything is grey

Oh when it finally rains
I get a sense of something more
Wish I could say I feel better
All I want is to change
It's the only thing I think about
And killing me to figure it out
Oh when it finally rains
I get a sense of pure remorse
Wish I could say I've been worse

Wish I could say I've been fucking worse

Wish I could say I've been fucking worse
Wish I could say I've been fucking worse
Wish I could say I've been fucking worse
