

## A Lot Of Love

Venke Knutson

I've known a lot of love  
Known a lot of pain  
Funny how they feel the same  
I've never, never, never known what's right or wrong  
Somehow both will make you strong

No need to put me down before you go  
No need to tell me something I already know

Down by the water, by the boathouse where we kissed  
Right by the park we said goodbye  
Won't say I miss you  
I'm not sure I do  
Everything's the same, nothing's new  
Except for the fact that I love you

I've told a lot of lies  
Said a lot that's true  
I've even made a joke or two  
The world goes round and round and round no matter what  
It don't care what I say or not

No need to tell me you're in love with me  
No need to point out something I've already seen

Ref

So if you want to be by my side  
Then come with me  
And if you want to come around this time  
You'll find me  
Cause I'll be
