

# Time To Kill

Venke Knutson

A fire that burns inside  
A landslide beneath my skin tonight  
The stars shine out in the street  
I'm waiting here  
What's in it for me  
You stole away my light  
Just empty words disguised  
Time to kill  
The night so still  
I feel no guilt  
I just want you here, my love  
Time to quit  
We just don't fit  
It just goes on and on and on  
What's left here for me

Just time to kill  
Wake up and drift away  
There's something in your smile that makes me stay  
Memories, well that's your fuel  
They're all dissolved cause you never knew the rules  
I gave you nights and days  
The price I had to pay  
Time to kill  
The night so still  
I feel no guilt  
I just want you here, my love  
Time to quit  
We just don't fit  
It just goes on and on and on  
What's left here for me  
Just time to kill  
A fire that burns inside  
A landslide beneath my skin tonight
