Forged In Hell

Venom Inc.

Your trapped in an electrical destination now
Hold tight cuz there's no way out
Rage is a violin that has never before
Closer searching lights of rage
Flames that touch the sky
Spilling cord right in the air
Right before your eyes

Sentiment of blazing feel
Burning right in
Thunder raging in your hearts
Fire beneath the ways

Forged in hell
From fire bring some here
Forged in hell
Unleash the dark legion now

Good arise lightning strikes
Stamping the hoards of black
Do lights the folding strikes
And there's no turning back
Welcome to our killing field
We're in the walls of death
We punish you for dark
You give us your last breathe

Sentiment of blazing feel
Blood and sweat we share
Thunder pounding through our souls
Behold the trail of death

Forged in hell
From fire bring some here
Forged in hell
Unleash the dark legion now

Let to be charged
Time is as well
Right infuse
The role into world
Let me out

Forged in hell
From fire bring some here
Forged in hell
Unleash the dark legion now
