

Tyrant

Venom Inc.

A sad denial
Put into plan
To rape the people
Destroy their land

Tyrant
Liar
Dealing your death from the skies
Tyrant
Pariah
Soullessly watching them die

Unholy madness
To cleanse the line
Displace the masses
From human kind

Tyrant
Believer
Moments of life that you seize
Tyrant
Deceiver
Wipe out this human disease

Cries of the innocent
Echoes of war
Hope fades away into dust
Life insignificant
Burned to the core
Human condition the cost

Tyrant
Messiah
Licking the blood from your hands
Tyrant
Liar
Crushed beneath all your demands

You drink the sadness
From a mothers tears
You feed on madness
Born from fear

Tyrant
Believer
Bow down before all you see
Tyrant
Deceiver
Lie before all who believe

Murder by proxy and guilty at birth
Judge and the jury insane
Death from the heavens that scorches the earth
Rivers of blood from their pain

Tyrant
Liar

Dealing your death from the skies
Tyrant
Pariah
How many more need to die
