

Defiant To The Will Of God

Venom Prison

Infested the seed of death is growing deep inside
Unknowing hosts, slaves to the parasite

All life is sacred
Generations of inherited lies
Defiant to the will of god

All life is sacred
Generations of inherited lies
The line is drawn
At nonhuman existence

Blessed be the fruit
Forced motherhood
Speciesist narcissism
Morals inconsistent

Tired and exhausted
The invader sucks you dry
(tired and exhausted)
For its own enrichment
(invaded and controlled)

Defiant to
The will of god
Declaration of war
To the celestial law
Defiant to
The will of god

Body controlled by a foreign object
Like a greedy worm
That feeds on failure
Infested the seed of death is growing deep inside

All life is sacred
Generations of inherited lies
Defiant to the will of god
All life is sacred
Generations of inherited lies

Unknowing hosts, slaves to the parasite
I want to be myself again

I'd rather bleed to death
Than live a life I had no say
In choosing

Their values prove no point
They serve no purpose
Selfish. Maladjusted. Cruel

A woman's body
Is her own business
I made my choice
A woman's body
Is her own business

Until I prove you wrong

My body my choice

I'll prove you wrong
