

Gorgon Sisters

Venom Prison

The misogynistic cogs are turning
Grinding the uterus
In barren decadence
The fruit of life is rotting away
Rotting away
Rotting away

Claustrophobic conditions
Made complete by compression of space
Free will cracked between concrete and boot
Ostracised. Victims of a democratic state

Sections of horror performed
In secret medical experiments
Invasive gynaecological procedures

Sliced with precision, removal of ovaries was not her decision
Experimentation, justification, vulnerable victim to forced sterilisation

In the name of race hygiene
Once again history repeats

The misogynistic cogs are turning
Grinding the flesh of the uterus
In barren decadence

Once again history repeats
Fundamental methods of control
Once again history repeats
In the name of race hygiene

Contaminating
Filled with hostility
What has caused you so much hate?

The misogynistic cogs are turning
Grinding the uterus
Victimised and segregated
In the interest of the white man
The white man

Victimised (Once)
Victimised (Again)
Segregated
Hypnotised (History)
Paralysed (Repeats)
Traumatised

The misogynistic cogs are turning
Grinding the flesh of the uterus
In barren decadence
The fruit of life
Is rotting away
The fruit of life
Is rotting away

Once again

History repeats
Once again
Forced sterilisation
Once again
Once again
