

# Nemesis

## Venom Prison

I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done

Blood on my hands and dirt on my feet  
Fearless, adrenaline pumps through my veins  
Gaps in my memory and tears in my eyes  
Filling the void, scars, maggots and flies  
What once was is now buried in the ground  
Ready to move on, I'm not sticking around

I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done

Now it's over  
Can you feel it?  
This is your end  
Now it's over  
Say goodbye

Gaps in my memory and tears in my eyes  
Filling the void, scars, maggots and flies  
I'm lost in time, watching the pendulum swing  
Break me, push the button and pull the string  
You picked me apart and I was left to pick up the pieces  
Pick up the pieces

I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done  
I am the damaged one  
You deserve all the damage done

You picked me out and I was left to pick up the pieces  
Say goodbye

You picked me out and I was left  
I was left to pick up the pieces  
I won't forgive, I won't forget  
The hate inside of me just increases  
You picked me out and I was left  
I was left to pick up the pieces  
I won't forgive, I won't forget

The hate inside of me just increases

Today is the day

Say goodbye
