

## **Veil Of Night**

### **Venom Prison**

Your lifeless body is presented well  
So peaceful, you really look yourself today  
I still don't believe in heaven or hell  
But I know that you left on a Wednesday  
Your lifeless body is presented well  
Friday on the plane I hide my pain

When I see you laying there, so many things go through my head  
When I see you laying there, I realise  
I never said "I love you"

Too much light will leave you blind  
But in the darkness, the eyes open wide  
Erebos, the darkness born from chaos  
Let the departed pass

Chains cast aside  
Fears laid to rest

Your lifeless body is cold to the touch  
So peaceful, as if you never felt the pain  
And to this day you never held a grudge  
Now I know that I won't see your face again

When I see you laying there, so many things go through my head  
When I see you laying there, I realise  
I never said "I love you"

Too much light will leave you blind  
Too much light will leave you blind  
But in the darkness, the eyes open wide  
Erebos, the darkness born from chaos  
Let the departed pass

All the stars in the sky falling down in demise  
In demise

All the stars in the sky falling down in demise  
In demise  
All the stars falling in demise  
All the stars in the sky falling down in demise  
In demise

The beauty of life  
Is that we all have to die  
My love will burn forever  
Burn eternally  
My love will burn forever  
Burn eternally
