

## Dead Love

Venom

At night the corpses rise and leave a stench of rotten life  
Eagerly the stagger forth to find a friend to gripe  
Copulating in the grounds of their eternal home  
Regurgitate ejaculations on their old tomb stones  
Dead love there's love amongst the  
Dead love there's love amongst the dead  
Licking at their blackened limbs the zombie's pleasure cries  
Lucifer's immortal glory watch them swapping eyes  
Writhing in a mound of death maggots under the flesh  
Digging fresh arrival thus to lovingly caress  
Dead love there's love amongst the  
Dead love there's love amongst the dead  
Aw ooh waw ha ha ha ha ha ha haa  
Go home you necromancers find true the words I've said  
No place for mortal magic there's love amongst the dead  
Aw yeah the walls around the cemetery built high forever strong  
Church of fools demand this for the dead don't die for long  
At the dawn of darkness the keeper takes his keys  
Locking out the living for the dead don't wanna leave  
Dead love there's love amongst the  
Dead love there's love amongst the  
Dead love dead love dead love dead love whoa
