

Hell

Venom

All the hate in this world I adore
Thousands of legions with black heart core
Riding high are my horsemen of four
Nothing's safe - no one cares - that's a fact

Hell - unholy kingdom ruled by war
Hell - pain and fury is the law
Hell - fire and brimstone I desire
Hell - Satan on his throne of fire

There's no love for the priestess of hate
Babylon nests in her kingdom and waits
Evil sanctuary screams and gyrates
Living Hell - lake of fire - infernal

Hell - unholy kingdom ruled by war
Hell - pain and fury is the law
Hell - fire and brimstone I desire
Hell - Satan on his throne of fire

On the night that the black angel fell
I opened the gate for an entrance to Hell
When he saw his new kingdom to dwell
Set alight - in the fire - of his rage

Hell - unholy kingdom ruled by war
Hell - pain and fury is the law
Hell - fire and brimstone I desire
Hell - Satan on his throne of fire
