Deceptive Faces

The path we used to walk now turns into a dead end
The pictures that we took are slowly fading
Waiting for someone to cut the chokers that kept us from breath
ing
And stay away from their lies that lead to early graves

No mercy for the ones that build insanity
We gotta end, we gotta end this masquerade (end this masquerade
)
No escape for those who killed humanity
You better run, you better run before it's too late

The values that we lived have been forgotten
The cure we used to take now starts to break the backbone
Push it back, crush these lies and sing this song with us
Searching for something to feel awake and make us stop sleepwal
king

No mercy for the ones that build insanity
We gotta end, we gotta end this masquerade (end this masquerade
)
No escape for those who killed humanity
You better run, you better run before it's too late

Now it's time to stop this masquerade
Now it's time to end this madness
Now it's time to stop this masquerade
Now the time has come

While the insane rise we're gonna close the gates
Let them voices fall silent, 'cause there's no escape
No one's screams will be heard down here, we're
Hiding behind this one big masquerade

Now it's time to stop this masquerade
Now it's time to end this madness
Now it's time to stop this masquerade
Now the time has come

No mercy for the ones that build insanity
We gotta end, we gotta end this masquerade (end this masquerade
)
No escape for those who killed humanity
You better run, you better run before it's too late

No mercy for the ones that build insanity
We gotta end, we gotta end this masquerade (end this masquerade
)

No escape for those who killed humanity
You better run, you better run before it's too late
