

Praying Mantis

VENUES

People make me sad
I won't ever cry
Hide and seek
You'd better run for your life
I got this desire
I can't deny
I will find you
And eat you alive

(Eat you alive, eat you alive)
(Eat you alive, eat you alive)

I'm lost in you, I can't get enough
Wrapped in your touch, this is love
Every move you make sets me on fire
Chasing the spark, you're my desire

People make me sad
I won't ever cry
Hide and seek
You'd better run for your life

Come
To me, now we're gonna have some fun
You'll see nothing to be worried about
There ain't no menace, boy
I ain't no praying mantis
Come
With me, I feel we've got the perfect harmony
I love it when you're getting loud
You look like you want it
I'm gonna eat you alive

You're all I need, I'm under your spell
I can't resist, I know this too well
The way you hold me, it feels so right
With you, every second's burning bright

Lost in the heat
What we make, a keepsake
Lost in the heat

People make me sad
I won't ever cry
Hide and seek
You'd better run for your life

Come
To me, now we're gonna have some fun
You'll see nothing to be worried about
There ain't no menace, boy
I ain't no praying mantis
Come
With me, I feel we've got the perfect harmony
I love it when you're getting loud
You look like you want it
I'm gonna eat you alive

(I'm gonna eat you alive)
(I'm gonna eat you)
(I'm gonna eat you alive)

But now I see the look in your eyes
Something's wrong, I realize
No way out, no place to hide
I'm trapped, I won't survive
I'm trapped, I won't survive

People make me sad
I won't ever cry
Hide and seek
You'd better run for your life

Come
To me, now we're gonna have some fun
You'll see nothing to be worried about
There ain't no menace, boy
I ain't no praying mantis
Come
With me, I feel we've got the perfect harmony
I love it when you're getting loud
You look like you want it
I'm gonna eat you alive
