

Lethal

Vera Blue

Nights don't wait
When you're moving that way
It's a little bit lethal
All takes shape
When I'm hearing your name
It's a little bit evil
Watch me fall
Diving into your walls
You don't have to be precious
Leave your flaws
And hold all of your calls
On the top of my checklist

Feed the darker side
Lean into the night
The visions are repeating
And the thrill of it is keeping me up
Lethal overdrive
Feel the time is right
The visions are repeating
And the thrill of it is keeping me up

Eyes so sharp
Hit me hard in the heart
And cut into my ego
Reckless state
And insanity fate
You go anywhere I go

I need to stay
Don't wanna wait
No reason for reality to over take
Tell me that it's what you want

Feed the darker side
Lean into the night
The visions are repeating
And the thrill of it is keeping me up
Lethal overdrive
Feel the time is right
The visions are repeating
And the thrill of it is keeping me up

I need it and the thrill of it is keeping me up
I need it and the thrill of it is keeping me up
I need it and the thrill of it is keeping me up

I need to stay
Don't wanna wait
No reason for reality to over take
Tell me that it's what you want

Feed the darker side
Lean into the night
The visions are repeating
And the thrill of it is keeping me up
Lethal overdrive

Feel the time is right
The visions are repeating
And the thrill of it is keeping me up
