

## Private

Vera Blue

I just wanna  
I just, I just wanna

It keeps me up at night  
Thinking 'bout what you're thinking 'bout  
Subjects in my mind, running wild,  
Images of a parallel life

You don't even have a clue  
Of all the things I'm doing to you

What's wrong in reality feels  
So right in my fantasy  
What's wrong in reality feels  
So right in my fantasy  
I just wanna make you feel good  
I just wanna make you feel good  
I just wanna make you feel good  
I just wanna make you feel good

It keeps me on my toes  
That you don't know, don't know  
And it sweeps me off my feet  
When I sleep, when I wake  
I remember we can never be

You don't even have a clue  
Of all the things I'm doing to you

What's wrong in reality feels  
So right in my fantasy  
What's wrong in reality feels  
So right in my fantasy  
I just wanna make you feel good  
I just wanna make you feel good  
I just wanna make you feel good  
I just wanna make you feel good

I just wanna  
I just wanna
