

# Temper

Vera Blue

I'm racing  
Cause waiting was never my strong point  
Now I'm counting to ten  
You got me all foggy  
Damn, I only got to three again

Please excuse my temper, I don't mean to be rude  
I just wanna get a little closer to you  
I know I should know better  
I'd just hate to lose your love to my short fuse

Lately, all I ever get is a maybe  
Tryna keep it cool, but I'm failing  
You're getting pretty good at testing out my temper  
And now it's almost daily, questioning my personality  
Starting to think that you hate me, do you?  
Tell me cause you're testing out my temper

Well I hope that, that you have  
Have a sense of humour  
And you think that it's charming how  
How rapidly I'm seeing red

Please excuse my temper, I don't mean to be rude  
I just wanna get a little closer to you  
I know I should know better  
I'd just hate to lose your love to my short fuse

Lately, all I ever get is maybe  
Tryna keep it cool but I'm failing  
You're getting pretty good at testing out my temper  
And now it's almost daily, questioning my personality  
Starting to think that you hate me, do you?  
Tell me cause you're testing out my temper

I don't wanna be someone who just can't figure it out  
I don't wanna have something that just keeps bringing me down  
All I want is to somehow get you loving me now  
I don't wanna be someone who just can't figure it out  
I don't wanna have something that just keeps bringing me down  
All I want is to somehow get you loving me now

Lately, all I ever get is maybe  
Tryna keep it cool but I'm failing  
You're getting pretty good at testing out my temper  
And now it's almost daily, questioning my personality  
Starting to think that you hate me, do you?  
Tell me cause you're testing out my temper

Lately, all I ever get is maybe  
Tryna keep it cool but I'm failing  
You're getting pretty good at testing out my temper  
Daily, questioning my personality  
Starting to think that you hate me, do you?  
Tell me cause you're testing out my temper
