

# When Swallows Say Goodbye

Vera Lynn

When swallows say goodbye  
And leave the autumn sky  
I watch and wish that I  
Could fly to you

When swallows fly away  
I dream of yesterday  
And in my heart, I pray  
You're dreaming too

So warm was your embrace  
The skies were blue above  
How cold the world can be  
Without your love

When swallows say goodbye  
And leave the autumn sky  
That's when I wish that I  
Could fly to you

When swallows say goodbye  
And leave the autumn sky  
That's when I wish that I  
Could fly to you

When you return again  
Just like the swallows  
Bring summer back again  
Bring back your love
