Desert

Verbena

I'm in love with the size of a desert
Never seen it but I'd love to kiss a cactus
Got my hands on a piece of the good earth
Both my hands up inside of a new world

It's exactly by the pound
I do I do, I would never [unverified]
This excitements got me down
I do I do

Desert grows to the size of a fever
Desert smiles at the feet of a new boy
Desert gets everything it ever wanted
I'm in hate with the size of a desert

This excitements got me down
I do I do, I would never do it [unverified]
This excitements got me down
I do I do

I'm in love with the size of a desert
Never seen it but id love to kiss a cactus
Got my hands on a piece of the good earth
Both my hands up inside of a new world

This excitements got me down
I do I do, I would never do it [unverified]
It's exactly by the pound
I do I do, I would never leave now [unverified]

This excitements got me down
I do I do, I would never leave now [unverified]
I do I do, it's exactly by the pound
I do I do
