

## White Grrls

Verbena

Get up get out in the sun  
Pretend you aint got no heart  
Somebody killing the fun  
Go get a big black car  
Not good to stare at the sun  
Bright lights will make her come down  
Oh jesus what has she done  
Well aint gonna tug on her dress(?)  
It goes on and on and on

White girls, do what they want  
But i dont get mine  
White girl, do what you want  
When i dont get mine

Doing everything that you want  
Salvation under a flag  
Youve got a mouth full of blood  
Come from the knife in your back  
And on and on till the end  
Until the day that you die  
Goddammit hear what i say  
There aint no help in the sky  
It goes on and on and on

White girls, do what they want  
But i dont get mine  
White girl, do what you want  
When i dont get mine

Hey now honey dont get crossed  
Im just playing all night long  
Aw now sugar dont get crossed  
I like shining all night long
