

Disconnected

Veridia

Disconnected
So far away
Ammunition
The words we say
I know that we can turn this around
We should be building bridges
Instead of burning them down

I am only human
It's my disguise
The air is thick
With rumors and lies
We act like fools and say we are wise
All this he said, she said
Love is hanging by a thread

Disconnected
So far away
Ammunition
The words we say
I know that we can turn this around
We should be building bridges
Instead of burning them down

I'll wave my white flag in this war
Lay my weapons out on the floor
I can't take, can't take it anymore
All this he said, she said
Love is hanging by a thread

Disconnected
So far away
Ammunition
The words we say
I know that we can turn this around
We should be building bridges
Instead of burning them down

Our beating hearts
Have got to beat together
Got to beat together
Our beating hearts
Have got to beat together
If we're gonna beat falling apart

Disconnected
Disconnected
Disconnected
We should be building bridges
Instead of burning them down

Disconnected
So far away
Ammunition
The words we say
I know that we can turn this around
We should be building bridges

Instead of burning them down

We should be building bridges
Instead of burning them down
