

Perfume

Veridia

I've been too complacent
The last drop in my cup was tasteless
Fill me up
All my dreams are sleepin'
Nightmares won't quit complaining
Wake me up

Wish I could see how you see
And telescope behind your eyes
'Cause you got that thing I've been wanting
I wanna bathe inside your light

I wanna live like you do
Breathing life into the room
Tap into and distill it
Bottle it to sell it
Pour it all over me
Like, perfume
Perfume

You've got that thing
You've got that thing
You've got that thing
You've got that thing

You just have that presence
Inhaling all your essence
Is not enough
Show me how you do it
You find joy in every moment
It's all I want

Wish I could see how you see
And telescope behind your eyes
'Cause you got that thing I've been wanting
I wanna bathe inside your light

I wanna live like you do
Breathing life into the room
Tap into and distill it
Bottle it to sell it
Pour it all over me
Like, perfume
Perfume

You've got that thing
You've got that thing

I needed someone to believe in
Reason to fight through this feelin'
You gave me something to believe in
Reason to fight through this feelin'

I wanna live like you do
Breathing life into the room
Tap into and distill it
Bottle it to sell it

Pour it all over me
Like, perfume
(Just like perfume)
Perfume

You've got that thing
You've got that thing
