

# You Keep Me Going

Veridia

Only the lonely know that hopeless place  
When they've seen all their heroes fade away  
Though nothing good ever in life lasts forever  
I've learned to sip my moment like it was meant to be savored

Some say the whole earth is melting  
And we'll float away with no warning  
And I say, we all need some help  
But we first gotta learn to get rest

When it keeps me going  
It keeps me going  
Keeps me going  
Yeah, it keeps me going  
It keeps me going  
Keeps me going

My mama said that I should just have faith  
Learn to forgive and show a little grace  
Though some people bite and they might not deserve it  
I want you brave and honest, just like I taught cuz you promised

Some say God's just a myth  
And there's no use in believing  
But she says, there's nothing wrong with  
Just a little hope

When it keeps me going  
It keeps me going  
Keeps me going  
Yeah, it keeps me going  
It keeps me going  
Keeps me going

Stay strong, my love  
Not long 'til we make it through this  
No fear, my dear  
I am here, gonna make it through this  
Stay strong, my love  
Not long 'til we make it through this  
No fear, my dear  
I am here, gonna make it through this

Cuz you keep me going  
You keep me going  
Keep me going  
Yeah you keep me going  
You keep me going  
Keep me going  
Yeah you keep me going  
You keep me going  
Keep me going  
You keep me going  
You keep me going  
Keep me going
