

I'll settle for you  
You're what I want  
This taste in my mouth I can't wash out

I'll stay up for you  
I'll wait outside your door  
I'm not what I was  
You're not who you were before

I'll settle for you even when you make it hard  
'Cause when I come in close I can't help myself  
So I'll level for you  
You're what I've needed  
Keep me raptured by your quiet  
Leave me drowning in amnesia

I'll settle for you  
I'll be what you want  
This taste in your mouth you can't wash out  
Look I'll be better if you'll show me how  
'Cause I can't stand this place that I live in but I can't get out
