

She Comes

Vermillion Lies

When she comes knocking round my door
When she comes knocking gonna cry some more
When she comes knocking gonna shake my bones
When she comes knocking gonna break my home

When she comes
Knocking, knocking, knocking, knocking

When he comes knocking at my heart
When he comes knocking gonna fall apart
When he comes knocking gonna shiver and shake
When he comes knocking like an earthquake

When he comes
Knocking, knocking, knocking, knocking

When they come knocking for the first time
When they come knocking gonna lose my mind
When they come knocking got nothing to say
When they come knocking gonna take me away

They come
Knocking, knocking, knocking, knocking

When she comes knocking round my door
When she comes knocking gonna cry some more
When she comes knocking gonna shake my bones
When she comes knocking gonna break my home

When she comes knocking
